

The LIFE Table Guide

Hosting is simple, personal, and driven by the people you invite.

Core Flow

1. Prepare and cook together.
2. Share a meal.
3. Use simple prompts to guide conversation. Share what works for you and listen to others.
4. Clean up together.
5. Share the recipe.
6. Capture the moment.
7. Register your table.

Conversation Ideas (optional)

You can naturally explore topics like:

- Food — What are you eating more or less of?
- Movement — How are you staying active each day?
- Sleep — What helps you rest well?
- Connection — Who are you spending time with?
- Purpose — What gives your day meaning?
- Stress — How do you reset and slow down?

There's no need to cover everything—let the conversation flow.

Make it your own

Play a simple game—cards, bocce, dice, or something you grew up with.

Set screens aside and enjoy time together—talking, moving, and having fun.

Most LIFE hosts start with friends or family. Keep it small, grounded, and real.

Share what you learn so the next host feels ready.
