

# LIFE Table Guide

Download from [longevityinitiativeforfoodandeducation.com](http://longevityinitiativeforfoodandeducation.com)

This guide keeps each LIFE table simple and measurable.

1. Prepare and cook together: involve guests in chopping, stirring, and plating.
2. Share a meal: sit down together with water or unsweetened drinks.
3. Talk about LIFE: describe the six pillars in your own words and listen.
4. Play a simple game: use a short prompt or card to spark reflection.
5. Clean up together: keep the experience collaborative from start to finish.
6. Share the recipe: text or email ingredients so others can repeat the meal.
7. Capture the moment: snap one group photo or write a sentence about the night.
8. Register your table: submit attendance and stories within 48 hours.

Most LIFE hosts start with friends or family. Keep it small, grounded, and real.
